# UniPrint Installation Instructions

IMPORANT: Before installing UniPrint make sure you exit out of the EZClaim application and exit the Citrix Receiver by right clicking on the icon in the system tray and clicking exit.

UniPrint Download Link

1. https://www.uniprint.net/eng/products/view/uniprint-client

2. Click on the 'EXE' button at the bottom of 'UniPrint Client - 5.2 Automatically Detect and Install'

3. Click the link and select Run or Save and Run.

4. Follow the on-screen setup instructions.

5. Once installed the Uniprint icon will show in the system tray.

Configuring UniPrint

Before logging back into EZClaim Remote, right click on the uniprint icon and configure the settings

- If you only need to print to their default printer, select 'Print directly to my default printer'. If you need to print to multiple printers choose 'Let me choose a printer every time I print'.

- Log back on to their application and a second uniprint icon will automatically show up.

The second icon signifies that uniprint is successfully connected to the session.
